DECEMBER CLOSES THREE-EIGHTHS LOWER

Pork Drops Fifteen Cents, Lard Seven and a Half Cents and Ribs Five Cents-Market Dull and Ensy.

CHICAGO, Nov. 1 .- A large increase in the visible supply of wheat, as reported by \$1.50; Bradstreet's today, caused a sharp decline in prices near the end of the ression. After an early advance on the sudden rise at Liverpool December closed 3-8c lower. Corn left off at a decline of 4403-8c. Oats are unchanged. Pork lost 15c, lard 71gc and

ribs 5/2714c. Liverpool started at an advance of 1d for spot wheat and 21-8d for futures, while the next quotation for December showed a rise of 31-Sd, and the closing cable reduced the last previous quotation from 1d to 13d. The effect of the bullish irregularity abroad upon speculative sentiment here was to start December wheat at about last 13C 15C 200 2.25; medium sized bunches, \$1.75672.00. night's price for calls. Business, however was by no means animated and the openwas by no means animated and the opening advance was followed by a long interval of duliness, with the tendency toward a slight downward reaction. The sudden raily at Liverpool was said to be due to small stocks and the unsettled political aspect. New York sent bullish dispatches, one of which said the continent accepted wheat offerings last night notwithstanding the holiday prevailing. Shaping house

wheat offerings last night notwithstanding the holiday prevailing. Shipping houses here also reported heavy acceptances from the United Kingdom. London threw cold water on the builish news, however, by quoting a better inquiry for cargoes on passage, but at prices 24/34/4 lower.

The clearances of wheat and flour from Atlantic and guif ports were again enormous amounting to 1,040,000 bu. Primary western market receipts all told were 1,585,000 bu., against 1,267,000 bu, the corresponding day last year. Chicago receipts were 475 cars, against 217 for the same day a year ago, and the northwest received 1,725 cars, as compared with 1,402 the similar day a week ago and 1,048 the year before. Bradstreats cancer made what stocks cast of the Rockies show 2,383,000 bu, increase. The amount ahout for Europe showed an increase of 20000 bus making a total of the Rockies show 2,383,300 bu, increase. The amount aroat for burope showed an increase of 3,900,000 bu, making a total of 6,282,000 bu, against 5,210,000 bu, increase the corresponding week of last year. Owing to the Bradstreet report and an absence of anything more warlike from Europe than had already been received, the market slumped off, closing weak at the lowest price of the day. December opened 14,75-8c higher at 674,805,3-8c, held steady at 67.3-8c, declined to 67.1-8c, rose to 674c, then dropped to 66.3-8c, the closing price.

Stronger cables and a decrease in stocks at Liverpool, together with the upturn in wheat, started corn higher. The early strength gave place to a much easier feeling, however, on account of the slackness of shipping demand. The declining tendency of wheat in the last half hour had a depressing effect and caused selling of corn, which left off at the lowest price of the session. Receipts were 501 cars. December began 1.8c higher at 23,5-86,2336.

a depressing effect and caused selling of corn, which left off at the lowest price of the session. Receipts were 501 cars. December began 1-8c higher at 325-863234c, held steady at 234c, then declined quickly to 324c buyers, the closing figure.

An excellent cash demand developed considerable strength in oats. There was a large business transacted with heavy buying by professionals. Receipts were 341 cars. May started 1-8c up at 244,621-7-8c, declined to 245-8, advanced to 245-8625c, then reacted to 245-8625c, then reacted to 245-8625c, exceipts were large and prices were weaker. Provisions ruled slow and easy. Receipts were large and prices were weaker. The demand was fair. There was liberal demand for lard by houses with English connections, which carried the whole list downward. Shipments were large—4.857.000 lbs. of meats and 4.238.000 lbs. of lard. January pork opened 5677½c lower at \$8.5569.90, declined to \$8.90 buyers, the closing price. January lard began a shade lower at \$4.324 and declined to \$4.874,54 at the close. January ribs started 24c lower, declined to \$4.574, and closed at \$4.574,54.50 buyers. Estimated receipts for Wednesday: Wheat, 350 cars, corn, 340 cars; outs, 240 cars; boxes, 35.000 head. Estimated receipts for Wednesday: Wheat, 350 cars; corn, 340 cars; outs, 240 cars; hogs, 35,000 head.

OPERATIONS IN STOCKS AND BONDS. Trust Stocks Engage the Principal Attention on 'Change. NEW YORK, Nov. 1.—The trust stocks continued to absorb a large share of atten-

tion in Wall street today. The fluctuations were violent and at times conflicting, but owing to the predominant influence of Tobacco in this class of securities most of the group closed the day at net losses. The training in ail of them was with full "mystery on and there was no conclusive reason known to the public either for the early advance or a subsequent decline.

Probably the inherent weakness of Sugar in view of the formidable trade war in prospect was the root of the dimenity and was precipitated by the fact that the new rival companies had commenced meiting Sugar today. There has been support of Sugar for several days with the obvious intent of aiding the rise in Tobacco and when it proved too heavy today Tobacco took a sudden drop of over a points and fluctuated feverishly for the rest of the day. It is quite possible Toolaco was allowed to fail with a view to shaking off an indescribable speculative following, but whatever the observed. bacco in this class of securities most of

sudden drop of over a points and fluctuated feverishiy for the rest of the day. It is quite possible Toolaco was allowed to fail with a view to shaking off an indescribable speculative following, but whatever the object of the movement the price was purely manipulative and under control. The Federal Steel stocks fell of from the sympathy, but fluctuations in these was much narrowed and the support more substantial. The securities of the new Standard Distilling company, the twin company of the American Reiming company, were the latest accessions to the list of so-called trust stocks on the exchange, with an added capitalization of \$44.00,000 to this class of securities. They rose from 2 to 2½ points over the early quotation, but sagged before the close in general heaviness of the market. The always vulnerable coalers came in for some severe raps on the ground of the unfavorable September statements of Reading and New Jersey Central and general depression in the anthracite trade.

Extreme declines ranged from 2 to 3½ points in the group, which uncovered stop-loss orders, but which was followed by a raily on covering of shorts. A rise of 1 3-8 in Manhattan on talk of new and powerful interests in the company aided the hardening tendency of the market in the late dealings.

Changes in the rallroad list are very smail as a rule and though losses predominate there is a fair sprinkling of gains. Norfolk & Western preferred is a conspicuous example on its strong September statement, showing last year's high level of earnings well maintained. There was not lacking a feeling of uneasiness over the threatening portents on the European political horizon, reflecting the spasmodic rise of the Liverpool wheat market in the absence of trading on the London and Paris stock exchanges. Railroad stocks as a whole, however, showed themselves remarkably little affected either by this or the weakness in the specialities. There was no stock market today here or hearing price with the interest on.

New York Dry Goods Market. NEW YORK, Nov. 1.—The dry goods market was rather quiet today with a fair number of buyers seeking goods. The market was rather quiet today with a fair number of buyers seeking goods. The home buyers have not changed their pur-chasing policy, but their actual require-ments are enough to ensure a steady de-mand for cotton goods for prompt delivery of fair proportions. Staple cottons are still slow and without new features. Printed fabrics were in moderate request. Print cloths show no change, with regulars quoted at 2c.

Strike is Averted. JOLIET, Ill., Nov. 1.—Threatened strike of the galvanizers of the American Steel and Wire company, which involved 3.000 emtaken place today has been averted. The men notified the company that they would not accept, declaring that Governor Tanner's aid to have been practiced at the company's Ohio and Indiana plants. In addition, local political conditions are said to have cut a figure. It is also said that Governor Tanner's aid was invoked to influence Colonel Gates, Colonel Lambert and Colonel Elwood, the three big wire and steel magnates, all of whom are on Governor Tanner's steef.

8 SHEBP—There was a fair run of saceptoday, and the market on desirable killers was in very fair condition. That is the demand was good on the part of local killers, and the most of the offerings changed hands in good season. The market, however, is just about 15c lower than last week on multon grades. The demand for feeders is good and the market on that kind so far has shown little or no change as regards values.
Quotations are: Good grass westerns, 4.1094.20; choice yearlings, 34.2594.40; fair to good yearlings, 34.1594.40; fair to good grass westerns, 2.904.10; good to choice hambs, 5.1595.20; fair to good lambs, 5.1596.20; cull sheep, 5.25973.00; cull lambs, 5.1596.50; cull sheep, 5.25973.00;

BIG VEIN OF RICH ORE FOUND

Will Turn Out \$300 to the Ton and is One of the Greatest Finds Made on the Continent.

SPOKANE, Wash., Nov. 1 .- A telephone

message from Republic Camp on the north half of the Colville reservation says that the miners have cross-cut twenty-four feet of ore in the big ledge on the 430-foot level and the drills were still in ore. The news of the big strike has spread to the surrounding mining districts and the excitement is intense. Conservative mining men say that such an ore chute with such values-\$200 per ton-is unprecedented in the mining history of the continent. The great chute has now been proved for a depth of thirty feet and a length of 400 feet. It it nowhere less than five feet wide and the width runs as high as twenty-five feet. Contrary to the general rule in gold mining the ledge is the richest at the widest points. The mine is eight; miles from a railroad and the ore is freighted that distance over a mountain road and shipped to a Puget Sound smelter.
